# The Scarab & Scarab XL

## The GlassMaster 33

The Scarab comes standard with the GlassMaster 33. This 4 button controller was specifically designed for frameworkers who want to anneal Borosilicate glass. You can use the pre programmed features to heat up the kiln, anneal, strike, repair and much more. It also allows you to design and store up 4 custom programs with up to 8 segments per program.

## THE SCARAB - ANNEALING KILNS

- 3 Doors with adjustable point rests designed for working with Borosilicate Glass.
- The 4 button controller has programming features specifically designed for Borosilicate glass.
- The wood handle stays cool making it easy to operate the doors.
- Operates on a 30 AMP breaker. (Scarab XL 60A)
- Easy access to components for repairs.
- Solid State Relays for long life.
- Main cantilevered door will stay at any position.
- Independent center door allows you to work with larger diameter tubing.
- Multiple handles for easy moving.
- Designed by noted lampworking artist Marcel Braun.
- Optional Secondary Point Rest and Stands available.

Model	Phase	Volts	Amps	Watts	Temp °F	CubicFeet	Opening	Depth	Wire Size	Breaker Size	NEMA Receptacle	Ship Weight
Scarab	1	240	27	6480	1700	3.0	27"x16"	12"	8	30	6-50	460
Scarab XL	1	240	48	11520	1700	8.1	27"x26"	20"	6	60	6-50	735
