

# Whatever you create, Skutt helps bring it to life.

From teachers to artists to production studios, people who require quality use Skutt kilns.

## production potters

### Wizards of Clay

- If it says Cone 10 you can be sure it's Cone 10. At Skutt we try to under promise and over deliver.
- Skutt kilns are designed to be so easy to maintain and repair you can save money by doing the work yourself.
- Turn loads fast when you need to or fire slow, Skutt Kilns can do it all.

## schools

### Marianne Vinich

- Skutt Kilns are tested to strict safety standards. UL and CSA listed.
- Convenient and easy to use features like Delay Start were specifically designed with teachers' needs in mind.
- Value, Value, Value. It's why Skutt is the most popular brand used in schools today.

## contemporary studios

### Amazin' Glazin'

- By far the most widely used kiln in Contemporary Studios today.
- Designed to fire everyday, seven days a week.
- If something ever happens to the kiln, Skutt can have the part you need the very next day.

## industrial

### Pratt and Larson Tile

- You can just look at the wiring, the precision fit of the brick, and the quality of the components and tell this is a professional kiln made by professionals.
- Compared to large front loaders, these kilns turn faster, offer more flexibility to fire diverse loads, and allow you to expand your capacity incrementally as your business grows.
- Accurate, repeatable results, firing after firing.

## artists

### Lisa Vogt

- The flexibility of the controller gives you the freedom to be creative and experiment.
- You can call Skutt's two full time technicians 5 days a week, 7:30 a.m. to 5:00 p.m. PST, to answer any questions.
- The peace of mind of knowing you purchased the most recommended kiln on the market.

### glass kilns

If you are looking for a kiln specifically designed for fusing, slumping, or annealing glass, please visit our Glass Kiln web site at [www.glasskilns.com](http://www.glasskilns.com) or call us at 503-774-6000.

*This catalog was specifically designed to be used as a tool for those considering a kiln purchase. Few things are more frustrating than making the wrong decision on a capital expenditure. So take your time, start from the beginning, and let us walk you through the process of finding the perfect kiln for your needs.*
