

Bead Kiln

GM10F BEAD KILN

- While perfect for annealing torch work beads, this kiln is also an excellent fusing kiln for smaller projects.
- The kiln comes standard with a side hinged door but can be ordered with the easy-to-operate bead door. Both doors come with wooden handles which are mounted away from the heat and allow you to open them without gloves.
- Perforated sidewall baffles allow the heat to come through while protecting you from the elements.
- The GlassMaster controller is also standard on this unit. The accurate and stable temperature provided by the controller is perfect for annealing.
- Extremely portable and works on standard household current.

FEATURES

- GlassMaster Controller
- Front loader design (door opens on the side)
- Optional bead door
- Works on standard household current
- Low Mass Type K thermocouple
- Protective Baffles
- Built-in stand

Model	Phase	Volts	Amps	Watts	Temp °F	Cubic Feet	Opening	Depth	Wire Size	Breaker Size	NEMA Receptacle	Ship Weight

HotStart Pro Studio Kiln

HOTSTART PRO STUDIO KILN

- The perfect starter kiln. Large enough to easily fuse a 12" platter.
- The Hot Start Pro has programming features for the beginner and the advanced artist.
- An even more economical version of this model, the GP706, is available with manual controls which includes an Infinite switch
- and Pyrometer in place of the controller.
- Both kilns operate on standard household voltage. Its compact size makes it perfect for the fuser on the move.
- Order with the HotStart accessory kit and you are ready to go. Includes 13" shelf with posts, kiln wash and fiber paper.

FEATURES

- GlassMaster LT Controller
- Element in lid
- Works on standard household current
- 8" stand
- Porcelain peep plug
- Low Mass Type K Thermocouple
- Infinite switch (Model GP706)
- Pyrometer (Model GP706)

Model	Phase	Volts	Amps	Watts	Temp °F	Cubic Feet	Opening	Depth	Wire Size	Breaker Size	NEMA Receptacle	Ship Weight
HOTSTART PRO	1	115	15	1725	1700	.6	15"	6.5"	12	20	5-15	100
GP706	1	115	15	1725	1650	.6	15"	6.5"	12	20	5-15	66

The GlassMaster LT

- The HotStart now comes standard with the most versatile 3 button controller on the market. The GlassMaster LT now has nearly all the features of the standard GlassMaster in a compact 3-button controller.
